

# Ali Haider Talukder Akib

Software Engineer II · Brain Station 23

Dhaka, Bangladesh · +880 1796-620959 · alihaidarakib@gmail.com

Portfolio: [akib1050.github.io/portfolio](https://akib1050.github.io/portfolio) · Codeforces: [\\_akiib](#) · GitHub / LinkedIn available on request

## PROFESSIONAL SUMMARY

Software Engineer II at Brain Station 23 with a strong foundation in algorithms and data structures (1,200+ competitive programming problems solved). Specialize in building scalable .NET / Angular systems on Azure, delivering end-to-end features across backend, frontend, and databases for international clients. Experienced judge and problem setter for university programming contests.

## EXPERIENCE

### Software Engineer II

Jun 2025 — Present

Brain Station 23

- Lead end-to-end development on enterprise products — system design, backend, frontend, and database.
- Drive performance optimization and scalable architecture for international client platforms.
- Tech: ASP.NET, Angular, Azure, Redis, PostgreSQL, Docker.

### Software Engineer I

Dec 2024 — Jun 2025

Brain Station 23

- Delivered critical features across backend services and frontend interfaces.
- Resolved complex integration challenges and improved system reliability.

### Associate Software Engineer

Jul 2024 — Dec 2024

Brain Station 23

- Built production features and contributed to client deliveries using enterprise engineering practices.

## SELECTED PROJECTS

### RS Sjoliv

Lead Developer · Sep 2025 — Present

ASP.NET · Angular · Azure · Redis

Spearheaded end-to-end development: system design, backend, frontend, and database. Implemented critical features, resolved integration challenges, and optimized performance for a scalable enterprise solution.

### Trygg Båt

Backend Engineer · Sep 2025 — Present

ASP.NET · Azure

Contribute to system design, API development, and feature implementation for a boat-safety platform.

### OF Platform

Software Developer · Mar 2025 — Present

ASP.NET · Angular · PostgreSQL · Docker · Redis

Architected scalable designs, optimized database structures, and engineered backend services with intuitive frontend interfaces — expanding operational capabilities and UX.

### MedicAid

Full-stack

C# · ASP.NET · MS SQL · JavaScript

Hospital / doctor / patient management system with appointments, records, billing, and inventory.

## TECHNICAL SKILLS

**Languages:** C#, JavaScript / TypeScript, Java, Python, C/C++, HTML, CSS

**Frameworks & Libraries:** ASP.NET / .NET, Angular, jQuery, Bootstrap

**Cloud & Data:** Microsoft Azure, MS SQL, PostgreSQL, Redis, Docker, Firebase

**Practices:** REST APIs, System Design, Data Structures & Algorithms, Git, OOP

## EDUCATION

### B.Sc. in Computer Science & Engineering

Jul 2019 — Nov 2023

Ahsanullah University of Science and Technology (AUST) — CGPA 3.46 / 4.00

Coursework: Operating Systems, Data Structures, Algorithms, Distributed Databases, Software Engineering, Computer Architecture, Java OOP.

## ACHIEVEMENTS & LEADERSHIP

---

- **2024** — NCPC Regional Finalist (NCPC JU 2024).
- **2023–Present** — Judge & Problem Setter, Intra AUST Programming Contest; authored contest problems.
- **2022** — Regional Finalist, IUPC AUST 2022.
- **2022** — 1st Runner-up, Intra AUST Programming Contest (CodeCombat 1.0).
- **2022** — 5th place, Cefalo CodeFiesta 2022 (Intra AUST Segments).
- **Competitive programming:** 1,200+ problems solved; 8+ onsite and 100+ online contests. Codeforces **\_akiib** (rating 1210, 125 contests); CodeChef **ali\_haider\_007** (max 1602); HackerRank Gold Badge in C++.
- Trained juniors on competitive programming (2022–23).
