

Ali Haider Talukder Akib

Software Engineer II

TECHNICAL SKILLS

.NET (7 /10)

Angular (7 /10)

jQuery (6 /10)

DBMS (5 /10)

C# (6 /10)

Java (5 /10)

Python (5 /10)

EDUCATION

B.Sc

Ahsanullah University of Science and
Technology

Group: CSE

Passing Year: 2023

BIOGRAPHY

I am a software developer with a robust foundation in algorithms and data structures, demonstrated by solving over 1,200 competitive programming problems. I specialize in developing scalable, efficient software solutions, consistently writing clean and optimized code. My expertise includes complex problem-solving and effective collaboration with cross-functional teams to deliver high-quality results. I am passionate about leveraging my technical skills to contribute to innovative and impactful projects, always striving to exceed expectations.

EXPERIENCE

Jun'2025 - Present

Software Engineer II

Brain Station 23

Dec'2024 - Jun'2025

Software Engineer I

Brain Station 23

Jul'2024 - Dec'2024

Associate Software Engineer

Brain Station 23

PROJECTS

1. RS Sjoliv

Technology Used: ASP.NET,Angular,Azure,Redis

Project Duration: Sep'2025 - Present

Short Description:

As the lead developer on the RS project, I spearheaded end-to-end development, encompassing comprehensive system design, robust backend engineering, intuitive frontend development, and efficient database management. I successfully implemented critical new features, resolving complex integration challenges and optimizing system performance to deliver a highly scalable and reliable solution. This work significantly enhanced user experience, streamlined key business operations, and delivered measurable improvements in system efficiency and reliability, directly impacting core business objectives.

2. Trygg Båt

Technology Used: ASP.NET,Azure

Project Duration: Sep'2025 - Present

Short Description:

Currently working as a Backend Engineer on the *Trygg Båt* project, where I contribute to system design, API development, and overall feature implementation.

ENGLISH SKILL

Speaking	★ ★ ★ ★ ★
Writing	★ ★ ★ ★ ★
Listening	★ ★ ★ ★ ★
Reading	★ ★ ★ ★ ★

3. OF

Technology Used: ASP.NET,Angular,PostgreSQL,Docker,Redis

Project Duration: Mar'2025 - Present

Short Description:

As a Software Developer on the OF Project, I delivered end-to-end solutions, driving the design, development, and implementation of critical features. I architected scalable system designs, optimized complex database structures, and engineered robust backend services alongside intuitive frontend interfaces. This comprehensive approach successfully resolved technical integration challenges, enhanced system performance, and significantly expanded operational capabilities, directly contributing to improved user experience and business efficiency.

4. MedicAid

Technology Used: C#,CSS,JavaScript,HTML,Microsoft SQL Server

Technical Responsibility: Backend, Database & Frontend partial

Project Duration: Aug'2025 -

Short Description: Introducing my ASP.NET-based doctor, patient, and hospital management system! Easily and smoothly organize appointments, medical records, and staff operations. Simplify patient care with efficient scheduling, billing, and inventory management. Simplify hospital operations for enhanced productivity and patient satisfaction.

5. Daily Task Manager

Technology Used: Java,CSS,HTML,Firebase

Technical Responsibility: Backend,Database

Project Duration: Aug'2025 -

Short Description: Presenting my versatile Android task manager app! Add, delete, and edit tasks effortlessly. Mark completed tasks for easy tracking. Enjoy smooth task management on any Android device for enhanced productivity and organization.

6. O'Doctor

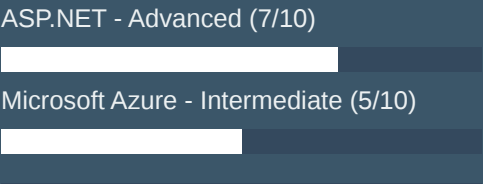

Technology Used: Java,CSS,Bootstrap,HTML,MySQL

Technical Responsibility: Backend, Database

Project Duration: Aug'2025 -

Short Description: It is a comprehensive hospital management system with patient, doctor, and blood donation portals. Doctors can prescribe medications, while admins oversee all aspects. Smoothly manage patient records, appointments, and blood donation drives for efficient healthcare delivery and administration

PROFESSIONAL SKILLS

Training

Complete SQL + Databases Bootcamp Zero to Mastery | The Ultimate Git Course by Mosh Hamadani | Learn C# Fundamentals by Coding C# Generics by PluralSight | Asp.net Web API C# Basics for Beginners | Learn about HTTP-HTTPS request, DevTools, DNS System, Workflow of browser

ACHIEVEMENTS

- 2024 - NCPC Regional Finalist,Participated in NCPC JU 2024

Aug 2025
- [2023 - Present] Judge and Problem setter, Intra AUST Programming Contest - Problems authored.

Aug 2025
- 2022 - Regional Finalist at IUPC AUST 2022

Aug 2025
- 2022 - Placed 5th in the Cefalo CodeFiesta 2022: Intra AUST Segments

Aug 2025
- 2021 - placed 9th in Intra AUST Programming Contest, Spring 2020(individual)

Aug 2025
